

Infant February 2026

February is here, and it's jam-packed with celebrations to fill your infant's day with learning activities that help develop their emerging skills! With Valentine's Day fast approaching, thoughts of love and special people are all around our center and classrooms. During the first week, as the rest of the school celebrates our love of America, we'll expose infants to new pictures and songs that correspond to this theme as we continue to wrap them in love. We'll also see what Mr. Groundhog has to say about the weather this year. Then we'll turn our focus to Valentine's Day celebrations and spend a week focusing on the special people in our lives.

February is also Dental Health and Heart Health Month. During the last two weeks, we'll take a look at healthy habits that promote dental health and good health in general. It's never too early to begin healthy habits that will last a lifetime!

Happy Valentine's Day!
