Older Infant
October 2026

Fall is here and it comes with many opportunities for fun with your baby! The theme for this month's curriculum is "Fall Fun!"

Falls scents and sounds are exciting for babies to explore. Since they are in the "sensorimotor" stage, babies use all their senses to explore and learn about their environment. Fall is a great time for your baby to experience many interesting activities that promote an understanding of their world. And that's exactly what we have prepared to do!

Your little one will participate in weekly activities in the areas of language development, fine motor skills, gross motor skills, social and emotional growth, sensory exploration, art options, and outdoor play! The weekly themes for this month are:

Harvest Happenings
Fall on the Farm
Fall in the City
Fairy Tales and Fables

As the leaves change color and fall, and the weather gets cooler, remember that "Fall is Fun!"
